ABOUT SIST - STEM 25

The Conference on focus on Sustainable development serves as a nexus for researchers, policymakers, academicians and industry professionals to collaborate on pressing sustainable environment. Sathyabama Institute of Science and Technology expresses the commitment to get involved in multidisciplinary research that can provide solutions to the problems faced by society and to promote sustainable development.

Focusing on the latest innovations in renewable energy, energy efficiency, and environmental protection, the conference aims to accelerate the global transition towards sustainability. Participants share cutting-edge research, best practices, and emerging technologies. The interdisciplinary nature of fosters a holistic understanding of the interplay between technology and environmental impacts. Through fostering dialogue and collaboration, the event contributes to the formulation of effective solutions and evolution of sustainable technologies, ensuring a greener future for all.

TRACKS OF THE CONFERENCE

Carbon Capture, Conversion and Utilization

Renewable Energy Production, and Design

Environmental monitoring & remediation: Soil, Air and Water treatment technologies

Sustainable Goals - Health & Safety
